In the United States Patent and Trademark Office Board of Patent Appeals and Interferences

In the Application of:

Che-Hsiung Hsu et al. CASE NO.: UC0420 US NA

APPLICATION NO.: 10/814.917 GROUP ART UNIT: 1796

FILED: March 31, 2004 EXAMINER: Woodward, Ana L.

CONFIRMATION NO.: 6333

FOR: Aqueous Electrically Doped Conductive Polymers and Polymeric Acid Colloids

Mail Stop Appeal Brief - Patents Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Appeal Brief Supplement 37 C.F.R. § 41.37

This supplement to Appellant's Appeal Brief is responsive to an Office Communication dated September 11, 2009, which stated that the statement of the status of claims in the Appeal Brief was incomplete. The Communication required only that portion of the Brief for which additional information was requested. Accordingly, a new section 3, Status of Claims, is provided in this paper.

3. Status of Claims. Claims 1-6, 9 and 13-21 are pending in the application. Claims 1-4, 6, 9 and 13-21 stand as finally rejected under 35 U.S.C. § 103(a) as being unpatentable over U.S. Patent No. 7,071,289 ("Sotzing"); claim 5 was objected to as being dependent upon a rejected base claim but would be allowable if written in independent form including all the limitations of the base claim and any intervening claims. Claims 7, 8, 10, 11, and 12 are canceled and no longer pending in the application. The objection to claim 5 is not being appealed. The final rejection of claims 1-4, 6, 9 and 13-21 is being appealed herein.

Application No.: 10/814,917 Docket No.: UC0420 US NA

Conclusion

Appellant respectfully submits that a complete and thorough response to the Communication of September 11, 2009 is provided in this paper.

Respectfully submitted,

/John H. Lamming/
